Clinical & Experimental Immunology

Clinical & Experimental Immunology is an international journal publishing biologically significant studies that have clinical relevance. Providing an international forum for the publication of original research on all aspects of clinical immunology and translational immunology, *Clinical & Experimental Immunology* is amongst the foremost journals in this field, attracting high-quality papers from all parts of the world. Translation is viewed as a process of applying ideas, insights and discoveries generated through basic scientific studies to the treatment, prevention or diagnosis of human disease.

Clinical & Experimental Immunology presents clinical immunological studies covering: immunopathogenesis of communicable and parasitic diseases; rheumatic, renal and endocrine disorders; immunological disorders in other organ systems and malignancy and transplantation.
